**NOTE:** Although the BLS reports the national average for those 16 and over, the tables above include only those that are 18 and over to make a more accurate comparison to the veteran population. Post-9/11 are of the Gulf War Era II (September 2001-present). Other periods of service include Gulf War Era I (August 1990-August 2001), Vietnam Era (August 1964-April 1975), Korean War (July 1950-January 1955), World War II (December 1941-December 1946). Veterans who served in more than one war time period are classified only in the most recent one. Veterans who served during one of the selected war time periods and another peacetime period are classified only in the war time period. The minority-by-gender unemployment rates are not displayed due to small sample size and are more appropriately displayed as annual averages.
